SUMMARY

Front-End AI Engineer and Systems Developer designing dependable digital products at the intersection of robust engineering and considered interaction. Specializing in AI-driven web interfaces, real-time model streaming, dynamic state flows, and reactive UI architectures.

PROFESSIONAL EXPERIENCE

Front-End AI Engineer Intern 2026 – Present
FlyRank AI

- Designed and shipped AI-driven web interfaces integrating real-time model streaming, dynamic state flows, and reactive UI architecture.

Data Encoder 2024 – 2025
Frisvo Ananta, Inc

- Collaborated with team leads to verify discrepancies and maintain structured data formatting standards across internal management systems.

SKILLS

Web & Frameworks

React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Electron

Core Engineering & Systems

Python, WASM (Pyodide), C++, Java, Web Workers

Cloud, Data & AI Workflows

Supabase, Gemini API, REST APIs, Git, GitHub

PROJECTS

ReelNotes

- Engineered a cloud-synced web app converting study notes into AI reels with kinetic typography and Gemini Vision models using Supabase.

GreenCode Analyzer

Academic Thesis

- Developed a WebAssembly (Pyodide) execution engine in Web Workers to measure code complexity and real-time energy telemetry (Joules/kWh).

ARROWKOPO

- Built a high-velocity arcade survival prototype engineered on a decoupled HTML5 Canvas rendering loop with 2D inertia physics and collision trees.

EDUCATION

Bachelor of Science in Computer Science with a specialization in Software Engineering 2023 – 2027
FEU Institute of Technology

CERTIFICATES

- PMI Project Management Ready™ 
- IT Specialist – Python 

ORGANISATIONS

FEU Tech ACM Student Chapter 2025 – 2026
Director for Media

- Directed event photography, promotional videos, and AVP highlight editing across tech programs.

FEU Tech ACM Student Chapter 2023 – 2025
Junior Officer for Media Committee

- Supported live event media coverage and post-production asset generation.
